whatever your number is, you just got pushed back. Also, no prototypes after raising money from 42,000+ reservations? Where is the money going? Does anyone know. It sure did not go into buying the old GM Plant. The citizens of Caddo paid for that. Remember when you all got all geeked up because Elio was running around touting he had bought the plant? He had no money then, and he has no money now. Where is the money gone/going? Then he said the surplus equipment money would be used for the prototypes...only he had borrowed millions against it and pocketed that money...and the equipment sale was to pay off the debt.

• [Stephanie Lynch](#) I have been in more meetings with Paul, Stu, and Bruce and know a lot more of the goings on that a person who has been slicked by a marketing campaign and fast talk. It is convoluted and it is complicated, and most w'll not, cannot, or refuse to comprehend.

• [Mack Duggan](#) When EM starts rolling "Elio's" off the line Ms Lynch do you have the basic decency to pledge right now that you will apologize to Paul Elio and his team and the citizens of Caddo Parish or your behavior? Will you admit that you have been wrong? Are you "man" err woman enough to do so? Since you have lied more than once I strongly suspect you won't do it. Misery loves company.

- [Stephanie Lynch](#) I was the only ONE who was not trying to benefit personally or politically from giving away \$7.5 million of our taxpayer's money for "jobs" we knew would never materialize. If that is an axe to grind, then yes, I have one. This was/is a rouse in my opinion.

- [Stephanie Lynch](#) Liar is a strong accusation, but an easy one to hurl. I'll have nothing to apologize for, just as you will not to me, or anyone else for rolling the dice on this deal. We both made a decision we believed was the best at the time based on the information available to us.
